# MATERIAL HANDLING EQUIPMENTS

**MT** TOP SELLER  
EXCELLENT SERVICE

**MT** LONG SERIES  
PALLET TRUCK

**MTB** WITH HAND BRAKE

Hand Pallet Truck				
Item/Type		MT25	MT30	MT50
Capacity Q	Kg	2500	3000	5000
Min. Fork Height h	mm	85   75	85	85
Max. Fork Height h1	mm	200   190	200	195
Fork Length	mm	1150	1150	1150
Width overall Forks B	mm	540/685	540	550

Super Long or Wide Pallet Truck				
Item/Type		MTLE20	MTL20	MTL35
Capacity Q	Kg	2000		3500
Min. Fork Height h	mm	75/85		85
Max. Fork Height h1	mm	190/200		200
Fork Length	mm	1100/1150/1220	1500/1800/2000	1500/1800/2000
Width overall forks	mm	838/850/1000	540/685	540/685

Hand Pallet Truck				
Item/Type		MTB25		
Capacity Q	Kg	2500		
Min. Fork Height h	mm	85	75	
Max. Fork Height h1	mm	200	190	
Fork Length	mm	1150		
Width overall forks	mm	540		

Low Profile Pallet Truck (51mm/35mm)			
Item/Type		MT-Low 51mm	MT-Super Low
Capacity Q	Kg	1500	1000
Min. Fork Height h	mm	51	35
Max. Fork Height h1	mm	165	90
Fork Length	mm	1150	1120
Width overall Forks B	mm	540	530

4 - Way Pallet Truck			
Item/Type		MT2W	
Capacity Q	Kg	1500	
Min. Fork Height h	mm	85	
Max. Fork Height h1	mm	85-170-210	
Fork Length	mm	1150	
Width overall Forks B	mm	540	

Galvanized Pallet Truck			
Item/Type		MTG	
Capacity Q	Kg	2000	
Min. Fork Height h	mm	85	
Max. Fork Height h1	mm	200	
Fork Length	mm	1150	
Width overall Forks B	mm	540	

Stainless Pallet Truck		
Item/Type		MTSS-304
Capacity Q	Kg	2000
Min. Fork Height h	mm	85
Max. Fork Height h1	mm	200
Fork Length	mm	1150
Width overall Forks B	mm	540

Stainless Pallet Truck			
Item/Type		MTSS316	
Capacity Q	Kg	2000	
Lifting Height h	mm	200	
Fork Width	mm	540	
Fork Length	mm	1150	
Net Weight	Kg	82	

Economic Pallet Truck With Scale			
Item/Type		MTE20	
Capacity Q	Kg	2000	
Min. Fork Height h	mm	85	
Max. Fork Height h1	mm	200	
Fork Length	mm	1150	
Width Overall Forks B5	mm	540	
Battery	V	DC 1.5Vx2	

**MT HD** PALLET TRUCK WITH SCALE

H/D Pallet Truck With Scale		
Item/Type		MTPS20
Capacity Q	Kg	2000
Min. Fork Height H1	mm	85
Max. Fork Height H2	mm	200
Fork Length (A)	mm	1150
Width Overall Forks B	mm	555

**MTT**  
Rough Terrain Truck

Rough Terrain Truck		
Item/Type		MTT12
Capacity Q	Kg	1200
Max. Fork Height H Max.	mm	233
Min. Fork Height H Min.	mm	63
Overall Size LxWxH	mm	1375 x 1605 x 1200
Net Weight	Kg	225

**MTS** ELECTRIC

Electric Scissor Lift Pallet Truck		
Item/Type		MTS
Capacity Q	Kg	1000
Min. Fork Height H	mm	85
Max. Fork Height H1	mm	800
Fork Length l	mm	1170
Width Overall Fork b5	mm	540/685
Battery	V/Ah	0.8KW

**MTHL**

Scissor Pallet Truck		
Item/Type		MTHL
Capacity Q	Kg	1500
Min. Fork Height H	mm	85
Max. Fork Height H1	mm	800
Fork Length l	mm	1100
Width Overall Fork b5	mm	520/680

**MT series**

Lifting Lowering Transport

Table Truck				
Item/Type		MT50	MT75	MT100
Capacity Q	Kg	500	750	1000
Min. Table Height h13	mm	285/340	420	380
Max. Table Height h1	mm	880	990	990
Dimension of Table	mm	815x500/850x500	1000x510x55	1016x510x55
N.W.	Kg	81	125	140

**MTD**

High Lift Table Truck with Double Scissor Action

Table Truck		
Item/Type		MTD70
Capacity Q	Kg	700
Min. Table Height h13	mm	445
Max. Table Height h1	mm	1500
Dimension of Table	mm	1220 x 610
N.W.	Kg	195

**MTETT**

Electric Table Truck		
Item/Type		MTE20
Capacity Q	Kg	2000
Lowered Height c	mm	190
Raised Height h	mm	1010
Lifting Speed With Load	mm/s	22
N.W.	Kg	280

**MTL series**

Platform Stacker		
Item/Type		MT415
Capacity Q	Kg	400
Max. Height H1	mm	1500
Min. Platform Height	mm	85
Platform Width	mm	576
Weight	mm	91

**MT-LIGHT**  
MINI DOUBLE USE STACKER

Hand Stacker		
Item/Type		MT220
Capacity Q	Kg	220
Min. Fork Height H	mm	50
Max. Fork Height H1	mm	1250
Fork Length l	mm	750
Fork Width B5	mm	1100

**MT-H**

MTH Series		
Item/Type		MTH1030
Capacity Q	Kg	1000
Lowerd Fork Height	mm	80
Max. Fork Height	mm	3000
Fork Length	mm	900
Overall Width	mm	800

**MT-H**

Hand Stacker			
Item/Type		MTH15	MTH10
Capacity Q	Kg	1500	1000
Min. Fork Height h 13	mm	85	85
Max. Fork Height h3	mm	1600	2500
Fork Length L	mm	900/1150	900/1150
Width Overall Forks B5	mm	330-740/550	330-740/550

**MT15**

Electric Pallet Truck		
Item/Type		MT15
Capacity Q	Kg	1500
Lift Height H3	mm	115
Fork Height Lowered H13	mm	85
Overall Length	mm	1645
Width Overall Forks B1	mm	540

**MT - MMT22AC**

Electric Pallet Truck		
Item/Type		MT - MMT22AC
Capacity Q	Kg	2200
Lift Height H3	mm	120
Fork Height Lowered H13	mm	85
Overall Length	mm	1815/1885
Overall Width b1	mm	726

**MTMAXAC**

Electric Pallet Truck		
Item/Type		MTMAXAC
Capacity Q	Kg	2700
Lift Height H3	mm	120
Fork Height Lowered H13	mm	83
Overall Length	mm	1770/1840
Width Overall Forks B1	mm	726

**MTS 1030-W**

Straddle Type Semi-Electric Stacker		
Item/Type		MTM1030W
Capacity Q	Kg	1000
Lift Height h3	mm	3000
Fork Height Lowered H13	mm	700
Overall Length	mm	1800
Fork Dimensions	mm	35/100/1150

**MTM15**

Semi - Electric Stacker		
Item/Type		MTM1535
Load Capacity Q	Kg	1500
Lift Height h3	mm	3500
Fork Height Lowered H13	mm	85
Length to face of fork L2	mm	610/670
Width Overall B1	mm	777

**MTE15** SERIES

Electric Stacker			
Item/Type		MT1536M	MT1546M
Capacity Q	Ton	1.5	1.5
Lift Height H3	mm	3515	4550
Lowered height H13	mm	50	50
Overall Length	mm	2064	1920
Width Overall b1	mm	795	915

**MTR13**

Reach Stacker		
Item/Type		MTR1345
Capacity Q	Kg	1300
Lift Height H3	mm	4450
Lowered height H13	mm	50
Overall Length	mm	2400
Width Overall b1	mm	1104

**MT15T**

Electric Stacker			
Item/Type		MT1550T	MT1555T
Capacity Q	Kg	1500	1500
Lift Height h3	mm	4915	5415
Lowered Height H13	mm	85	85
Overall Length	mm	2170	2170
Width Overall B1	mm	1040	1040

**MT2036**

Electric Stacker		
Item/Type		MT2036
Capacity Q	Kg	2000
Lift Height h3	mm	3600
Lowered Height H13	mm	85
Overall Length	mm	2170
Width Overall B1	mm	1040

**MT MOBILE SCISSOR LIFT ACCESS PLATFORM**

Mobile Scissor Lift Access Platform		
Item/Type		MTMSL 45-14
Load Capacity	Kg	450
Min. Height	mm	2000
Max. Height	mm	14000
Lifting Power	Kw	3Kw
Total Weight	Kg	2400Kg

**MT MOBILE AERIAL WORK PLATFORM**

**SINGLE MAST TYPE**

Mobile Aerial Work Platform	
Item/Type	MTAWP10-100
Lft. Capacity	276lbs / 125 kg
Working Height	38ft4.68m / 11.7m
Overall widthl	2ft 9.46in / 0.85m
Lifting Power	0.75kw
Total Weight	772lbs / 350 kg

**MT MOBILE AERIAL WORK PLATFORM**

**DUAL MAST TYPE**

Mobile Aerial Work Platform	
Item/Type	MTAWP12-200
Lft. Capacity	441lbs / 200kg
Working Height	44ft 11.36 in / 13.7m
Overall widthl	3ft 1.40in / 0.95m
Lifting Power	1.1kw
Total Weight	1433lbs / 650kg

**MT DRUM TILTER**

Drum Tilter		
Item/Type		MT36
Capacity	Kg	364
Drum Height	mm	915.5
Litre	L	210
Size Diameter		572
Net Weightl	Kg	50

**MT35**

Stacker Type Drum Tilter		
Item/Type		MT35
Rated Capacity	Kg	350
Lifting Height	mm	1425
Overall Length	mm	1190
Overall Width	mm	890
Net Weightl	Kg	155

**ROMOLD LTD**<sup>®</sup>  
specialist manufacturers of polyethylene products

**BT30**

# LIFTING EQUIPMENTS

## Chain Hoist | Chain Block

CE

### Features

- » Robust light weight steel construction is resistant to external shocks.
- » Lower headroom allows more available space.
- » High-accuracy and high tenacity spur gear, small dimension but nice performance.
- » Ultra strong, wear-resisting and heat treated Grade T8 alloy steel chain as standard load chain.
- » Surface treatment: electrostatic powder coating for protection against rust and corrosion.
- » Safety factor(minimum breaking load): 4 times of the rated capacity.
- » Each piece of chain hoist is operationally tested to 150% of the rated capacity and issued with an individual Certificate of Conformity.
- » Double-pawl and double guide rollers enhance performance, safety and reliability:  
In case one pawl spring is broken or damaged, the other one maintains functions. This mechanism makes safety and durability redoubled.
- » High strength 360 degree rotating top and bottom hooks equipped with safety latches:  
Drop-forged top and bottom hooks are with sufficient strength and tenacity. In case of overload, it will be deformed without breaking. Besides, the design of hook abdomen is enhanced, to make hanging easier, also the safety latch can prevent hanging tool from slipping out.
- » Unique bearing design for high efficiency:  
High quality bearing to make its mechanical efficiency improved significantly, smallest hand-pull force brings about maximum work efficiency.
- » Load chain guide mechanism:  
Excellent load chain guide mechanism to make load chain fed smoothly.  
The chain guide sprocket is strong and durable.
- » Comply with the latest Machinery Directive and relevant EN safety standards.

Capacity (ton)	Standard Lift (m)	Load Chain (mm)	NO. of Load Chain Falls	Chain Pull to Lift Full Load (N)
0.5	3	6x18	1	231

## Lever Hoist | Lever Block

### Features

- » High-strength, stamped steel construction for external resistance and longer service life.
- » Light hand-pull, easy for lifting.
- » Optimized design makes routine inspection and maintenance easily.
- » Ultra strong, wear-resisting and heat treated Grade T8 alloy steel chain as standard load chain.
- » Surface treatment: electrostatic powder coating for protection against rust and corrosion.
- » Reliable load actuated brake with non-asbestos brake discs.
- » Chain guides provide smooth chain operation.
- » 360 degree rotating top and bottom hooks equipped with safety latches.
- » 360 degree handle rotation with short stroke to ratchet loads.
- » Unique bearing design for high working efficiency.
- » Safety factor(minimum breaking load): 4 times of the rated capacity.
- » Each piece of lever hoist is operationally tested to 150% of the rated capacity and issued with an individual Certificate of Conformity.
- » Comply with the latest Machinery Directive and relevant EN safety standards.

Capacity (ton)	Standard Lift (m)	Load Chain (mm)	NO. of Load Chain Falls	Chain Pull to Lift Full Load (N)
0.75	1.5	6x18	1	140
1	1.5	6x18	1	140
1.5	1.5	7.1x21	1	220
2	1.5	8x24	1	240

6	1.5	10x30	2	340
9	1.5	10x30	3	360

## Non-Sparking Chain Block

Model/Type:  
**EX-CB**

### Feature

- » Perfect alternative for non-sparking applications in potentially explosive environments.
- » Widly used in many fields, like oil platform, chemical plant, refinery, pipeline construction, off-shore energy, mine, shipyard,...., etc.
- » Manufactured as per EX CII Grade and relevant safety standards.
- » Safe, high efficiency and reliable in operation with minimum maintenance.
- » Can be combined to use with non-sparking geared trolley.

Model / Type	EX-CB-0.5	EX-CB-1	EX-CB-1.5	EX-CB-2	EX-CB-3	EX-CB-5	EX-CB-10	EX-CB-20
Rated capacity (ton)	0.5	1	1.5	2	3	5	10	20
Standard lifting height (m)	2.5	2.5	2.5	3	3	3	3	3
Test load (ton)	0.63	1.25	2	2.5	4	6.3	12.5	25
Headroom Hmin (mm)	255	306	368	444	486	616	700	1000
Chainpull to lift full load (N)	211	304	343	314	343	383	392	392
Chain falls	1	1	1	2	2	2	4	8
Diameter of load chain (mm)	6	6	8	6	8	10	10	10
Net weight (kg)	8	10	16	14	24	36	68	156
Extra weight per meter of extra lift (kg)	1.7	1.7	2.3	2.5	3.7	5.3	9.7	19.4

\*Longer chain is available, maximum length: up to 12 meters.\*

More non-sparking tools are available.

- Non-sparking lever block (from 0.7ton to 9ton)
- Non-sparking geared trolley (from 0.5ton to 30ton)

## Air Chain Hoist | Pneumatic Chain Hoist

### Features

- » Air motor vane is imported and with 0% water-solubility, superstrong stability and abrasion resistance.
- » Apply to complex and dangerous working places or environment with limited space.
- » Small, light and simple for operation.
- » Longer working time and low maintenance .
- » Clean, safe, to prevents fire accident, electricity attacks and no break-ups.
- » Equipped with air trolley is available.

### Applications

- » Professional production automation line.
- » Marine, aircraft production & maintenance.
- » Petroleum, chemical industry, chemical fibre, printing & dyeing.
- » Harsh working environments like inflammable, explosive, dust, poisonous, high temperature, paint-spray industry.

### Fitted with

- » Overload protection device.
- » Emergency stop function.
- » Air shut-off valve on air inlet.
- » Exhaust muffler.
- » Upper and lower limit switches.

## Battery Chain Hoist

Move It-Holland battery chain hoist is an ideal tool for use in the areas without power supply, like forest, farm, wilderness, under-construction buildings, plumbing, ....etc. Also suitable for safety and rescuing applications.

### Characteristics

- » Lightweight and easy to carry.
- » Compact, fine appearance and user-friendly and robust.
- » No mains power required at the work site.

### Specifications

1. Rated capacity: 500kg
2. Lifting speed: 2.2m/min
3. Load chain: 4.0x12mm x 4mtr(Grade 80), longer length available.
4. Power system: DC 24V rechargeable Li-ion battery
5. Battery performance: 20-25min (continuously use with full loading)
6. Safety device: Overloading protector.
7. Overloading warning alarm: Buzzer sounds while overloading occurs.
8. LED loading display: Green - full; yellow - medium; red - weak.
9. Hoist weight / Gross weight: 9.4kg / 17.7kg

### Features for hoist

- » Hooks: Alloy steel material by die-casting formation, wide opening with safety latch.
- » Housing: Aluminum alloy shell, light and compact.
- » Motor: High-speed brush motor (series wound) with high-efficiency.
- » Quick Connector: Industrial 2-Pin power connector, easy connection and storage for control switch.
- » Load chain: Alloy steel load chain (4.0mm, grade 80 standard) provides a higher resistance against fatigue, wear and rust.
- » Brake / Clutch: Friction clutch can make the motor idle running to avoid damage under overload and over tight revolving.
- » Gears: High efficiency driving system plus 3-stage planetary speed reducing gear and 2-stage spur speed reducing gear.
- » Chain Container: One-piece HDPE chain container provides higher resistance, tensile and durability.

**Accessories included**

1. Battery chain hoist c/w chain(4.0mm x 4mtr) x 1.
2. Top hook assembly x 1.
3. Bottom hook assembly x 1.
4. HDPE chain container x 1
5. Trigger switch set x 1, consisting of:  
Trigger: stepless variable speed.  
Reverse switch: left: forward rotation of drum; right: rearward rotation of drum.  
Control cord: 3-meter-long flexible PVC cord.  
Quick connector: easy plug in & out.  
Battery condition indicator: LED display to monitor battery consumption.  
Overload warning buzzer for top safety.
6. High-performance rechargeable Li-ion battery(DC 24V 4.0Ah) x 2:  
Battery performance: 20-25 min. (continuously use with full loading).
7. 220V/50Hz/1Phase charger & adaptor x 1.
8. Portable blow case x 1
9. Operation manual x 1
10. Color box x 1

## Push Trolley

These hand-operated manual trolleys are divided into two types: push trolley and geared trolley.

Push trolley is operated by pushing the load lifted, geared trolley by pulling the hand chain. Both of these items are running on the bottom of I-beam and can be also attached with hoist to become a conveyor system.

### Features

- » Compact design and easy assembly.
- » Can be installed or removed at any point along the track, also additional uses with hoist or other lifting tools to improve efficiency and labor-saving.
- » Adjustable to suit H and I beam flanges with various widths.
- » Drop-forged steel wheels for strong and lower wear.
- » Built-in lugs prevent falling and act as bumper guards.
- » Ball surface wheel designed to establish centered contact with beams for running along universal tracks, and for distributing load away from beam flanges to reduce flange stress.
- » Used on straight or curved track.
- » Fitting for special beam widths is available.
- » As per Machinery Directive 2006/42/EC and standard EN 13157+A1:2009.

## Heavy-Duty Snatch Block with Shackle (single-sheave)

### Feature

- » Solid all-steel construction, heavy-duty type design.
- » Easy opening mechanism ensures a fast change of wire rope while block is suspended.
- » Fully machined sheave.
- » Sheave has a sealed ball bearing system, fully lubricated for maintenance-free operation.
- » Forged steel eye is designed to avoid twisting of unit during operation.
- » Fitted with grease nipples for ease of maintenance
- » Special design of side plates restricts rope from jamming.
- » Move It snatch blocks are operationally tested to 2 times of the Working Load Limit(WLL) and come with an individual test certificate.
- » Each unit is supplied complete with high strength safety bow shackle to European standard.
- » All Move It snatch blocks have an individual serial number stamped on the identification plate.
- » As per the latest Machinery Directive and EN safety standards.

## Snatch Block with Hook (single-sheave)

### Features

- » Durable powder coat finish.
- » Hook type is fitted with safety latch.
- » Fully machined sheave.
- » Heavy-duty permits to perform under extreme condition.
- » Forged spare parts enhance the quality.
- » 2~10 sheaves for bigger capacity available(max. up to 320ton).

# SNATCH BLOCK

## SNATCH BLOCK MODEL: HPB Capacity: 0.5-6.4T

**Snatch Block**, hinged, with single steel sheave Capacity 500-6400 kg . One side of the snatch block is hinged and can be opened for easily and quickly positioning of the wire rope on the sheave. It can also provide a quick and versatile rigging point or redirect a wire rope.

### Features:

- Swinging the hook in the direction of pull securely locks the snatch block.
- The high quality cast steel sheaves have machined grooves.
- When choosing and classifying snatch blocks, take the principles for Rope Drives DIN 15020 into consideration.

## General type: MTC-S

### Feature

- » High-quality alloy steel load receptor.
- » Aluminum die-casting enclosure.
- » High-duty bow shackle.
- » High-duty eye hook.
- » High capacity rechargeable battery.
- » Infrared remote controller.

### Function

- » Zero.
- » Low voltage alarm.
- » Overload alarm/record.
- » 3-point linearity correction.
- » Gravity acceleration value set.

- » Tare in/out.
- » Battery supervision
- » Digital calibration.
- » kg/lb switchable.

## ELECTRIC WIRE ROPE HOIST

Main Performance and Technical Specifications

**MICRO ELECTRIC  
ROPE HOIST  
500KG / 1000KG**

Model: SL-1000			
Load Capacity	500/1000kg	Lifting Speed	510m/min
Voltage	220V~50Hz	Rating Current	10A
Insulating Grade	B	Work Level	M 1
Protecting Grade	IP54	Input Power	2000W
Capacitance	70VF/450V	Work rate	S3-20% 10min
Wire Rope	Ø 6.0mm	Machine NW	30.65kg
Lifting Height	20/10m		

# WIRE ROPE HOIST

- Single Grid Low Headroom Wire rope Hoist
- Double Grid Wire Rope Hoist

**MOVE IT** Wire Rope Hoist are designed and built for today's heavy-duty wire rope hoist applications. Euro-style design features and construction make our **MOVE IT** wire rope hoist extremely durable, high reliable and very low maintenance for years of trouble free service.

**MOVE IT** adopt advanced and mature technologies and expertise for this line of wire-rope hoist achieve exceptional performance with unparalleled safety and durability

## Features

Capacity Range : 1t - 100t

Compact design for space saving

Euro-style Module technology

High duty motor increase your productivity

Overload limiter and limit switches are standard for safety

Dual speed as standard

High quality components integrated

## Compact structure, light weight but with strength, precise positioning to improve the work efficiency

MOVE IT wire rope hoist adopt European design, the mechanical structure is compact and strong but with light weight and small size. For single grid type hoist, low headroom is the standard feature, which means can cover large room and height on working site. For double grid type hoist, the wheel pressure us small and can be customized by different grider span. our wire rope hoist wit dual speed as standard on lifting & traveling compared with single speed hoist, it will bring good performance on positioning, and will improve the working efficiency absolutely.

## Modular design and multiple options can meet various demands of customer

MOVE IT concept of modular design has always been throughout the whole product design, which ensures the standard and interchangeability of parts, greatly reduces the maintenance costs of products. All products series of MOVE IT provided with complete set of spare parts, and professional service team ensure to provide after-sales service to solve the problems from customers in time.

## High quality mechanical & electronic components can ensure good working performance

MOVE IT select every component seriously, no matter to the mechanical parts like motors, brakes, and steel wire rope, or the electronics as inverter, contactors, and relay. High quality components are always the basic rule for every good products. We believe that only the good quality components integrated together, can ensure the good working performance as complete machine.

### Low operation cost, green energy and environment friendly

MOVE IT wire rope hoist with same design crane can significantly reduce self-weight of complete system, and decrease the total power consumption which almost save 30% power every year on average compared with other domestic products. Meanwhile, the running noise is lower than national standard which can create a quite and comfort working environment.

### Safe and reliable, running monitoring and simple and convenient maintenance

MOVE IT technology product is provided with various functions such monitoring, protection, which can ensure safe and reliable operation of the crane, and its running monitoring unit can make detailed records of running condition of electric hoist, running status of motor and safety working cycle, and provide warning in advance. All records can provide data for maintenance, and the root of problem should be understood to be provide maintenance much more timely and efficiently.

### High Production Efficiency Improved by Precise positioning

MOVE IT wire rope hoist with double lifting speed as standard configuration and transition speed control of trolley ensure the efficient running of crane in workshop, and ensure the plans of customer can be implemented as schedule. By the frequency conversion technology, it can reduce waving of loads, which makes the positioning more quickly and accurately. Meanwhile it can reduce the impact on whole machine when start or breaking, more smooth and safe when operation.

## MODULAR DESIGN FLEXIBLE COMBINATION

#### Trolley Drive Unit

Trinity of high performance motor, Reduction gearbox and Crane.  
Compact structure, excellent performance.  
Low energy consumption, low noise and eco-friendly design.  
Variable frequency control, smooth running, low impact and meeting requirements of a variety of speed.  
Asbestos-free brake disc and its normal service life can be up to one million times.  
No-wear design, maintenance-free, long service life.

#### Drum

Use the Q345-type seamless steel tube as raw material and process it by numbers of working procedure.  
Advanced processing methods to ensure concentricity of the drum.  
The depth of rope groove is in compliance with the FEM standard.  
High-strength pressing plates and bolts are fastened on the end of the wire rope to ensure the safety of lifting.

#### Swift Plug & Socket

Aviation plug and socket for swift connection with power and control, Easy operation and less maintenance, safe and durable, with high protection class in Ip55.

#### Lifting Height Limiter

Freely adjustable screw lifting height limited with high precision, wide adjustment range, safe and reliable.  
Multiple-contact configurations can effectively achieve the function of transition with low and high speed and the stop during the rise and fall.

#### Rope Guide

Light weight, good wear resistance, to reduce the wear of wire rope effectively.  
Prevent wire rope from skipping and loosening to off-groove, and safety first.

#### Wire Rope With High-Performance

The imported wire rope of high-performance with tensile strength up to 2160MPa.  
The surface with galvanized processing for corrosion prevention effectively.  
With good flexibility to ensure wear resistance of the wire rope and prolong its service life.

#### Electric Control Box

Rational design convenient maintenance, decreasing running cost.  
Professional and high quality of electric components, safe and reliable.  
Multiple safety protection devices to ensure equipment safe.  
Protection grade IP55.  
Clear identification to easy for trouble removal.

#### Lifting Hook Group

DIN standard of lifting hook with safety clasp and wire rope sheath, ergonomic design.  
Forged by the high-strength material of T grade.  
Accompanied with nondestructive test certification of lifting hook randomly.

### Feature

- » More convenient, more easy in operation and more widely used.
- » Adopting lever handle, either may shake operation along the whole circle, or may swing operation at any angle in the any position of the circle. It has unique advantage in the narrow space.
- » Seal design prevents foreign matter entering gear box and braking mechanism.
- » The braking material is made of environment material and is more suitable for the special area.
- » Newly-designed brake pawl for better stability of the braking.
- » The handle is adopted free structure to adjust the length freely.
- » The ratchet is big enough to contain more wire rope and more suitable for operating in deep well and remote drawing.

### Application

- » Applied for cross-country vehicle, agriculture, yacht and other special vehicle.
- » It is the device of self-protection and pulling of vehicles and boats, and also may be used for saving in snowfiled, marshland, desert, sea beach, muddy patch and other adverse circumstances.
- » It may be operated for clearing away obstacles, pulling material and installation.
- » It is indispensable safe device of mine, environment protection, forestry, transportation, fire fighting and other open fields.

# ECONOMICAL MINI ELECTRIC WINCH

Electric mini winch

**Load: 500 kg x 50m lift**

**Load: 250 kg x 20m lift**

**Model: MTL D 500**

**220 V**

**Model: HXS-250F**

**230 V**

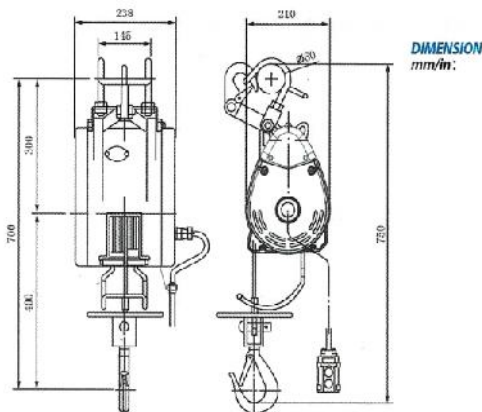

Two Hole of Electric Wiring Box Available

Push Button Switch A' SSY

Lower Hook

## Characteristics :

- The mini hoist can be widely used in hanging for engineering, plants hoist operation, civil hydro power installed piping, Warehousing and shipping the goods; it can be used to lift, raise and, drag. Its compact, lightweight, economy effective, and easy to obtain single-phase power supply
- Using brush less motor series excited of high efficiency industrial grade; there are two selected configurations of single-phase voltage (110 / 220V); its enameled heat levels up to 200 degree, specifically designed for long crane.
- Dual brake system with one mechanical ratchet gear brakes and the other brake resistor short circuit controller; formula oiled copper disc brake with high friction coefficient, which needs no adjustment; immediately brake in power outage or malfunction, great safety and long life.
- Cable stops automatically over the volume limit; cable stops automatically when inverting.
- Direct control which saves tedious lines and has the advantages of easy maintenance, low failure rate, security and stability, control switch with separate power line and quick connector makes it easy to carry.
- Imported steel wire from large manufacturing firms with 3-fold safety factor.
- Use drive bevel reducing gear of high efficiency; heat treatment alloy steel gear with its intensity three times higher than rated hoist.
- Die-casted in one piece, motor body and gearbox have the advantages of strong toughness computer CNC machining high precision low noise, and smooth operation, using automotive-grade powder coating, it has nice appearance; its compacted and light-weighted.

## Wire Rope Pulling Hoist | Wire Rope Winch

### Feature

- » Lifting capacity ranged from 800kg to 5400kg.
- » Compact, light weight, simple and easy to operate.
- » Versatile and portable unit for pull, lift, drag and stretch applications over long distances.
- » Can be used in horizontal, vertical and angled working positions.
- » Corrosion free aluminium alloy casing.
- » Adjustable telescopic handle for easy operation (0.8t model is fitted with fixed handle.)
- » Backward lever and forward lever placed in tandem can provide a slim design and assure power transfer along the center.
- » Built-in shear pins for overload protection, also can be replaced without removing the load.
- » Equipped with an anchor bolt, offering numerous and versatile connection possibilities with load hooks, sling ropes and sling chains.
- » Rope clamp system easily disengaged with a lever allowing smooth installation of wire rope.
- » Stamped with individual serial number for easy identification and traceability.
- » 20m steel wire rope with eye hook as standard (longer wire rope is available).
- » Parallel clamping system providing evenly distributed grip at a lower force, resulting in less rope wear.
- » Supplied with individual certificate and operation manual.
- » Low operation and maintenance requirements.
- » Conforms to EU Machinery Directive 2006/42/EC and standards EN 13157:2004+A1, AfPS GS 2014:01.

## Lifting Clamp

### Vertical Plate Lifting Clamp

**Features**

- » Heavy-duty industrial plate clamp suitable for lifting and turning various of steel plates.
- » Special alloy steel cam and jaws are drop forged and heat treated for long service life.
- » Equipped with hinged shackle.
- » Antislip design of spring locking device.
- » As per the latest Machinery Directive and relevant EN safety standards.

### Girder Clamp | Beam Clamp

**Features**

- » A safe and ideal tool at a fixed position to suspend manual and electric hoists, and overhead loads.
- » Specially designed shape of clamping jaws for distributing load away from beam flange edge to reduce flange stress.
- » Also used for lifting beams and rigging anchor point.
- » Threaded adjustment handle for easy mounting.
- » Adjustable to securely fit a wide range of flange widths and beams.
- » Lower headroom provided by built-in suspension bar
- » The width of jaws are designed to be equal for the best possible stability.
- » Special locking screw mechanism ensuring the unit stays tight, and thus increasing safety.
- » Comply with the latest Machinery Directive and EN safety standards.

# ELECTRIC WINCH

## Model: MT-1 2000

**12000lb(5443kg) 12V  
Heavy Duty Electric Winch**

**Winch with 500A solenoid and latest gear box assembly & clutch handle**

### Specification:

Rated line pull.....	12000lb(5443kg) single line
Motor.....	4.8KW/6.6HP 12V, 5.0KW/6.65HP 24V, Series Wound
Control.....	Remote switch, 12ft(3.7m) lead
Gear train.....	3 Stage Planetary
Gear reduction ratio.....	187.2:1
Clutch.....	Keyway Cam
Braking Action.....	Two-way, Automatic In-The-Drum
Drum Dimensions.....	Φ2.5"x8.8"(Φ63.5mmx224mm)
Cable (Dia X L).....	Φ23/64"x90'(Φ9.1mmx27.5m)
Rope (Dia X L).....	Φ10mmx28m
Fairlead.....	4-Way Roller Fairlead/Hawse Fairlead
Wireless Remote control...	Optional
Battery.....	Recommended: 650CCA minimum for winching
Battery Leads.....	2 gauge, 72"(1.83m)
Finish.....	Dark gray powder coat
Overall dimensions.....	21.1"x6.3"x8.6"(537x160x218mm)
Mounting Bolt Pattern.....	254mmx114.3mm
Packing size.....	57X19x34.5cm 1PC/CTN
Weight (cable winch).....	N.W/G.W:37kg/39kg
Weight (rope winch).....	N.W/G.W:27kg/29kg

## ELECTRIC Winch

### Features & Benefits

- The Winch Brake is Equipped with Safety Electro-Hydraulic Block Brake, to Guarantee the Winch Work Safely.
- Final Drive Gears are Made of Heat Treated Carbon Steel, Offering Great Strength.
- Precision Needle Bearing used in High Load Areas offers Lower Friction Level and Longer Life.
- Superior Stainless Steel Front Plate Provides Rust Resistance.
- High Impact Case Provides Weather Resistance and Protection for Internal Components.
- The Winch Drum is Made from Q345B Steel Plate.
- All the Mechanical Parts are Detected by Flaw Detection.
- ICE Induction Motor, Electro Magnetic Brake System Rope End Stopper is Sliced for Safety.
- Used in Construction, Marine and Oilfield Industries.

## ROUND SLING

- Protected with strong fabric;
- Available single cover and double cover;
- Manufactured according to EN 1492-2;
- With CE & GS Certificate issued by TUV.
- Safety Factor 7:1;
- Material 100% polyester;

**CARGO LASHINGS**

CITEX Cargo lashings are made of high strength polyester webbings and are suitable for almost every kind of transport. The width of the webbing is 25 mm, 50 mm, 75mm & 100mm both the ratchet and the webbing have a capacity of 1.5 Ton, 05 Ton, 08 Ton and 10 Ton respectively. The ratchet and fittings are made of the highest quality hardened steel.

Size	Breaking strength

Color	orange/other

**Move It** designs and manufactures a wide variety of webbing nets for interior truck and trailer. These nets are tailored to fit each application resulting in a highly effective load securing system.

## Ratchet Puller | Ratchet Grip

Move It-Holland ratchet puller is designed for conductor and cable tensioning applications within the electricity distribution and telecommunication industry.

### Features

- » Compact design, light weight and easily carried.
- » Fast advance mechanism.
- » Equipped with automatic mechanical brake and change pawl.
- » More built-in safety factors than other brands.
- » Easily field repairable and inexpensive for maintenance.
- » Solid ductile and malleable iron construction.
- » Integrated gear, more wear-resistant for use.
- » Integral type die-casting sheave for smooth operation.
- » Yellow zinc-plated finish protects components from rust and corrosion.
- » 360° handle movement.

45" forged hook c/w safety latch

Integral type die-casting sheave

Integrated gear, more wear-resistant

Pulling Capacity (kg)	Lever Length (mm)	Max. Tension Length (mm)	Min. Tension Length (mm)	Numbers of Hooks	Wire Rope (mm x mtr)
0.5	330	1370	360	2	5 x 1.2
1	330	1230	410	2	5 x 2.2
1.5	430	1250	450	2	6 x 2.2
2	430	1870	480	2	6 x 3.2

## Wire Rope & Cable Grip

Move It-Holland wire grip can be used with ratchet puller, to grip, pull and tension wire rope, cable and metal rods, etc.

### Features

- » Light weight and compact design, easy for carrying.
- » Made from drop forged alloy steel for durability and toughness.
- » Parallel jaws provide firm grip without damaging wire rope/cable.
- » Guide prevents the grip from dropping off wire rope/cable and allows instant release.
- » Grips open easily and release instantly to quick insert or remove wire rope/cable.
- » Yellow zinc-plated finish protects components from rust and corrosion.
- » Large handle eye opening accepts standard hooks and easily attached to tackle blocks or strap pullers.

W.L.L. (kg)	Grip Range (mm)	Package Size (mm)	Q'ty/CTN (pcs)	N.W. (kg)

## Mechanical Jack | Rack and Pinion Jack

Move It-Holland mechanical jacks are primarily used for assembly applications, to brace or support loads.

It can basically used to lift almost all kinds of loads in maintenance and repair, ship building, construction as we as agriculture.

### Feature

- » Sturdy structure, light weight, easily handling.
- » Low gearing tolerance - smooth transmission, free of jerks.
- » Lifting claw adjustable in different positions.
- » Collapsible handle for easy storage, operation and maintenance.
- » Sensitive brake system, quick braking, safe and reliable.
- » Quick lift performance makes it work more efficiently.
- » Conforms to the latest Machinery Directive and EN standards

## Brano Mechanical Jack

### Uses:

- For lifting and manipulation with load
- For assembly work of all kind
- Also in variant for use in explosive environment (marking NEXP)

## Hydraulic Industrial Toe Jack

CE

Move It-Holland offers a range of high quality industrial toe jacks from 5ton to 25ton. These toe jacks can be used to raise loads and place skates underneath them as well as for general repair or maintenance and for installation of heavy items(eg factory machinery, containers etc).

All of our jacks have dual lifting capacities: you can lift by using the toe or the head of the jack.

### Features

- » Industrial quality, heavy-duty type.
- » With compact and stable structure.
- » No chaining trouble.
- » Usable in any position.
- » Alloy steel valve body appears more artistic and handy.
- » While the toe is higher than the base, then cylinder can be rotated in 360 degrees.
- » Lowering speed can be accurately adjusted.
- » Equipped with safety valve for overload protection.
- » Convenient and rotatable handle hub for easy operation in any direction.
- » The base is alloy steel forged, to make sure high strength.
- » Conforms to the latest Machinery Directive and EN safety standards.

# Split Frame Cold Cutting & Beveling Machine

SOLUTION FOR PRECISION PIPE CUTTING & BEVELLING

- Oil & Gas
- Petro Chemical
- Nuclear Power Plants
- Mining Industries
- Pharmaceutical
- Fabrication

## Features

- Cuts and Bevels varied Pipe Thickness with just change of Interchangeable bits
- Portable - External Mountable of its type for Pipe Cutting and Beveling Applications
- Low Friction adjustable Bearing provides maximum Stability and Extended Machine Life
- Bearing and Sliding Parts are totally enclosed for Operational Safety and Long Life
- Easily Splits into halves to mount on the Outside diameter of the Pipes on-Line
- Cutting & Beveling can be done in single set up or else two tool bits for same operation can be used
- Available in Pneumatic, Hydraulic and Electrical Drive .
- Bevels and Cuts material Like MS, Carbon Steel, Alloy steels, stainless steels, Inconel, etc
- Size range : 3/4" - 03", 03" - 08", 06" - 12", 10"-16", 18"-24", 26"-32", 36"- 42", 40"-48" & Above

## Specifications

- Feed Method : Auto - Star Wheel
- Feed Rate : 0.06 mm/0.0025"
- Wall Thickness : < 30 mm (Without Reset the Tool Bits)

## Drivers :

- Air / Pneumatic : 0.6 - 0.8 Mpa 1500 - 2000 Lit/Min
- Electric : 220 Volts, 50/60 HZ, 6/12 Amps, : 1000-2000 W
- Hydraulic : 380 Volts - 3 Phase, 12.5 Mpa, : 2-60 Lit/ Min

## MACHINE BODY SIZE

Model Specifications	80	150	300	450	600	750	900	1050	1160	1300	1500

## ID Mount End Prep Beveling

The ID Mounted beveling operation utilizes an expandable mandrel which is slid into the open end of the pipe. A draw nut is tightened, which expands the mandrel blocks up a ramp and against the ID surface for positive mounting, self centered and squared to the bore. As the tool bit is fed in to the material from the end, bevel is produced which conforms to the angle predetermined by the angle ground in to the bit. Bits are available for practically any material or beveling required, and bits can be custom made for any form tooling operation.

## Features

Cold Beveling  
Fast, Precision, On-site Beveling  
minimal Axial and Radial clearance  
Light weight and compact design  
Easy set-up & robust operation  
Electric or Pneumatic drive

### Technical Parameter

Electric	Pneumatic	Working range(I.D. mm)	Wall thickness (mm)	Rotating rate (rpm)

MTE-107	MTP-207	Φ 1270-1470	≤75	4

## FEATURES

This machine is researched and manufactured according to the operation of long-distance pipeline and flange. We have independent intellectual property. Outside calipers is fixed in proper position, high stiffness of structural support, fulfill the wide cutting range, easy operation, high efficiency. It can process chute/flume/sealing surface and blank flange, tube-plate of heat exchange.

Swivel Tool post with 360° power feed, wide range use.

Feed handwheel of horizontal and vertical tool post with scale, precise and convenient regulation.

Tool post can feed automatically in both axial and radial, processed precision is guaranteed.

Adjustable hydraulic drive motor, adjustable speed, strong power, meets different requirements of customers.

Maximum depth of roughing processing is 1.5mm.

Pneumatic motor is optional, used for proof-explosion on-site operation.

## FLANGE FACING MACHINE

## Hydraulic Pipe Bender With Hinged Frame

Manual for long radius

Prod. No.	Size in Inches	Pump Force in Tons	N. Wt (Kgs)	G. Wt. (Kgs)

MT 212 F	6 - 12	7.5	--	--

## Pipe Benders

### Spare Bending Formers of Hinged Frame

For long radius heavy gauge bending ideally suitable for "C" class (Sch. 40 pipe) size 3/8" to 6" gas water, steam DIN 2440/2441 up to 90° bending.

M.S. Formers

Bending radius R is always calculated from the middle of the pipe

# MOVEABLE STEEL GANTRY CRANE

## Feature

- » Robust light weight steel construction
- » Can go where forklift or stacker can not.
- » Heavy duty supported leg design.
- » Balanced design allows for easy maneuvering, even under load.
- » Simple belted construction.
- » Easy for assembly, disassembly and maintenance.
- » 4 casters to keep good moveability and maneuverability.
- » Patented product, all right reserved.
- » Comply with standards EN ISO12100-1:2003 & EN ISO12100-2:2003.
- » Comply with ANSI/ASME B30.17 standard.

## Rescue Tripod | Safety Tripod

### Anchor points

- » **One central eye bolt:**  
Main anchor point.
- » **Three lateral eyes**  
Additional anchor points, easy to hang other safety devices.

### Hand winch & connecting part

- » **Hand winch:**  
Fitted with self-lock device, equipped with 30m wire rope.
- » **Connecting part**  
Newly designed and fastened by two lock pins.

### Feature

- » The tripod is the anchorage connector for typical confined space and rescue systems.
- » It features a lightweight, high-strength aluminium construction.
- » 1 central eye bolt and 3 additional lateral eyes, easy to hang various safety devices.
- » Connecting part is fitted with safety lock pin, to keep hand winch from slipping up.
- » Telescoping legs cater to different operating heights.
- » Ring type safety chain is supplied to minimize horizontal forces and prevent the legs spreading and collapsing.
- » Steel feet incorporate a rubber sole for flat surfaces and spiked edges for slippery surfaces.
- » Equipped with hand winch c/w self-lock device.
- » Comply with Council Directive 89/686/EEC and standard EN 795.

### Technical data for tripod

- » Working load limit: 200kg.
- » Working height:
  - Legs fully extended 214cm
  - Legs fully retracted 134cm.
- » Anchor points in the head:
  - 1 main central eye bolt
  - 3 additional lateral eyes
- » Main parts: made of high strength aluminium alloy.

### For hand winch:

- » Rated capacity: 1800LBS.
- » Wire rope:
  - diameter: 4mm
  - length: 30m.
- » Gear ratio 8:1.

## Retractable Type Fall Arrester

CE

### Features

- » Designed to restrain the user from vertical falls while allowing the user to move freely.
- » High strength aluminium alloy housing, light and durable.
- » Equipped with galvanized steel cable lifeline.
- » Innovative engineering solution to arrest falls by two-disc anti-ratchet braking system.
- » Widely used in metallurgy, petroleum, automobile manufacturing, chemical industry, the electric power, bridge, aloft work..... etc.
- » Consist of snap hook connector, energy absorber, retractor, swivel safety hook and dragline.
- » Can be used in conjunction with rescue tripod and safety harness.
- » Conforms to Personal Protective Equipment Directive 89/686/EEC and standard EN360:2002.
- » Each piece with an individual certificate of declaration.

### Parameters

- » Rated capacity: 150kg.
- » About high strength steel cable:  
diameter: 4mm;  
length: available from 6m to 40m.
- » Safe stopping distance: 10cm to 20cm.

### Applications

### Markings of fall arrester

### Specifications

### MOVE IT KEVLAR 1025

Art. nr. EMBLK1025K  
Kevlar band 2,5 m  
EN 360

### MOVE IT KEVLAR 1060

Art. nr. EMBLK1060K  
Kevlar band 6 m  
EN 360

## Full Body Safety Harness

### Features

- The move it range provides a good fit and easy adjustment Options
- The Move it harness are characterized by a striking color, metal parts in one piece and strong webbing.
- Move it full body harness with twin webbing lanyard to be used With vertical anchorage system & construction industries.
- Fully adjustable shoulder and thigh straps.
- General harness with 1 D-ring on the back & 2 D-rings on the chest.
- Ideally positioned sit strap for extended comfort.
- Color: Red and Black
- EN361 / EN354 CE Approved.

## Shock Absorber Double lanyard with Scaffolding Hook

### Features

- Polyamide Y-webbing, steel snap hook & aluminum scaffold hook.
- User for job construction, heavy industrial, logistic, Hygiene environmental, oil gas, and other activities.
- Double lanyard with two big hooks and one small snap.
- Manufactured in heavy duty polyester, 4.5 cm width by 6 ft (1.83m) length.
- The shock absorbing, is designed to limit arrest forces plus the added benefit of elasticity.
- Content type labels with the information of the product and the inspection.
- Test report with approval of international standards.

# ELECTRODE OVENS

## FEATURES AVAILABLE IN OUR ELECTRODE OVENS ARE:

1. Analogue Thermostats
2. Digital Temperature Controllers
3. Voltages offered are: 110V & 220V
4. DUAL Voltage ovens
5. Stainless steel body ovens (on request)
6. Bench oven & Flux oven models are fitted with mini-circuit breakers for safety
7. Each oven is tested and heated to rated temperature before being supplied
8. Calibration Certificates are available upon request
9. **All ovens are tested to BS 638.5 and EN 60974-1 Norms.**

Electrode capacity	5Kg (10 Lbs)
Max. Electrode Size	18" (457mm)
Working Voltage	220 (standard)
Wattage	80watts
Supply Cable Size	18 AWG x 3 C
Temp. Range	Max. 150°C
Thermostat	None
Thermometer	None
Heating Element Type	Mica Band type
Insulation	25mm ceramic wool
Outer Size (mm)	545 x 120 x 113
Inner Chamber (mm)	Depth = 19 1/2" ø=3"
Inner Basket	Yes
Body	Pre-galvanized sheet, powder coated
Basket hook	Yes
Tilt Stand Feature	Yes
Light Indicator	Yes
Shoes	Yes
Shape	Round
Handle	Fix Handle
Wheel	None
Net Weight	4.16Kg.

## Model MT-10RiETAT

- Electrode Oven MT10
- 5kg Electrode Capacity
- Analogue Thermostat
- Temperature range : Max 150 °C

Electrode capacity	5Kg (10 Lbs)
Max. Electrode Size	18" (457mm)
Working Voltage	220 (standard)
Wattage	80watts
Supply Cable Size	18 AWG x 3 C
Temp. Range	Max. 150°C

Body	Pre-galvanized sheet, powder coated
Basket hook	Yes
Tilt Stand Feature	Yes
Light Indicator	Yes
Shoes	Yes
Shape	Round
Handle	Fix Handle
Wheel	None
Net Weight	4.16Kg.

## Model MT5D

- Electrode Oven MT5D
- 5kg Electrode Capacity
- Dual Voltage (110 & 220V)
- Temperature range : Max 150 °C

Electrode capacity	10Kg (10 Lbs)
Max. Electrode Size	18" (457mm)
Working Voltage	110, 220 (standard) Opt. 70V, 48V
Wattage	250watts
Supply Cable Size	18 AWG x 3 C
Temp. Range	80 - 150°C
Thermostat	Analogue
Thermometer	None
Heating Element Type	Mica Band type
Insulation	25mm ceramic wool
Outer Size (mm)	Height =590, ∅=196
Inner Chamber (mm)	Depth = 480, ∅=120
Inner Basket	Yes
Body	Pre-galvanized sheet, powder coated
Basket hook	Yes
Tilt Stand Feature	No
Light Indicator	Yes
Shoes	Yes
Shape	Square
Handle	Fix Handle
Wheel	None
Net Weight	6.00Kg.

## Model MT10

- Electrode Oven MT10
- 10Kg Electrode Capacity
- Analogue Thermostat
- Temperature range : 80-150 °C

Electrode capacity	10Kg (10 Lbs)
Max. Electrode Size	18" (457mm)
Working Voltage	Dual Voltage 110 & 220V
Wattage	250watts
Supply Cable Size	18 AWG x 3 C
Temp. Range	80 - 150°C
Thermostat	Analogue
Thermometer	None
Heating Element Type	Mica Band type
Insulation	25mm ceramic wool
Outer Size (mm)	Height =590, ∅=196
Inner Chamber (mm)	Depth = 480, ∅=120
Inner Basket	Yes
Body	Pre-galvanized sheet, powder coated
Basket hook	Yes
Tilt Stand Feature	No
Light Indicator	Yes
Shoes	Yes
Shape	Round
Handle	Fix Handle
Wheel	None
Net Weight	6.00Kg.

## Model MT10D

- Electrode Oven MT10D
- 10kg Electrode Capacity
- Analogue Thermostat
- Dual Voltage (110 & 220V)
- Temperature range : Max 150 °C

Electrode capacity	22Kg (50 Lbs)
Max. Electrode Size	18" (457mm)
Working Voltage	220V Standard
Wattage	600watts
Supply Cable Size	18 AWG x 3 C
Temp. Range	Max. 300°C
Thermostat	Analogue
Thermometer	None
Heating Element Type	Mica Band type
Insulation	2" ceramic wool
Outer Size (mm)	570 x 280 x 280
Inner Chamber (mm)	460 x 150 x 150
Inner Basket	4 sections
Body	Outer-Pre Galv. Inner Stainless Steel Sheet
Basket hook	No
Tilt Stand Feature	No
Light Indicator	Yes
Shoes	Metal Bracket
Shape	Square
Handle	Pull-Out Handle
Wheel	6" Solid Rubber
Net Weight	15.00Kg.

## Model MT22

- Electrode Oven MT22,
- 22kg Electrode Capacity,
- Analogue Thermostat,
- Temperature range : Max 300 °C
- Wheel & Handle

# BENCH OVENS

Electrode capacity	70kg (150 Lbs)
Max. Electrode Size	18" (457 mm)

# Industrial & Institutional Strength Products

## SIMPLE GREEN Industrial Cleaner & Degreaser

- Cleans, degreases & deodorizes all washable surfaces
- **EPA Safer Choice product**, meets LEED cleaning policies
- Non-toxic and biodegradable formula
- Non-flammable, non-abrasive and non-corrosive
- Removes grime on equipment, engines and machinery
- Ideal for janitorial cleaning and building maintenance
- Cleans and deodorizes food residue, oils and grease
- Perfect for surface-prep prior to painting and plating
- Safe for use in cleaning equipment and parts washers

## EXTREME SIMPLE GREEN® Aircraft & Precision Cleaner

- High soil capacity, superior grease cutting and clean rinsing formula ensures fast and effective cleaning
- No reagents that oxidize finishes or degrade plastics
- Biodegradable and petroleum-distillate free
- Use on structural metals, hoses, seals and factory finishes without risk of hydrogen embrittlement or corrosion
- Ideal for MRO, manufacturing and surface prep
- Safe for entrance into oil/water separators and clarifiers
- Meets a variety of aircraft testing specifications

Keeping Your Environment Cleaner and Safer

**simple  
green**

**SIMPLE GREEN LIME SCALE REMOVER**

- Non-abrasive, organic salt formula is bleach, ammonia and phosphorous free
- Won't strip protective finishes, cause damage or discoloration or etch sensitive surfaces
- Descales HVAC components, pipes, hoses, tanks, storage systems, washing machines and more
- Eliminates mineral deposits and soap scum from sinks, toilets, spigots, sprinklers, lighting, glass and furniture
- Safe for ABS, PVC, copper and other plumbing materials

**SIMPLE GREEN FOAMING COIL CLEANER**

- Aerosol enables versatile 360 degree precise application
- Self-rinsing on condensate producing coils
- **NSF registered C1 & P1** for use in food processing areas
- Non-corrosive, non-fuming and non-flammable formula
- Safe for aluminum, stainless steel, painted or enameled metals, plastics, acrylic, stone and more
- Ideal for use on HVAC units, refrigerators & freezers
- Quickly cleans coils, fan blades, blowers, grills, registers, heat exchangers, vents, electronic filters & drain pans

**SIMPLE GREEN ANTI-SPATTER**

- High-performance spatter release solution
- Non-corrosive formula with no added color or scent
- Free of solvents, methylene chloride and silicone
- Rinses residue free for use prior to plating or painting
- Safe for aluminum, steel and other metal surfaces
- Keeps nozzles, diffusers, tips and shrouds free of build-up
- Protects vices, pliers and other tools from damage
- Ready-to-use formula goes on easily and quickly
- Reduces costly downtime for spatter removal

# Industrial & Institutional Strength Products

## SIMPLE GREEN CARPET CLEANER

- Professional-strength cleaning and deodorizing
- Proven safe and effective by the Carpet and Rug Institute
- Non-toxic, biodegradable and petroleum-distillate free
- Will not harm carpet fibers or backings
- Removes grease, oil, coffee, wine, blood and more
- Ideal for spot cleaning rugs and fabric upholstery
- Use in hot water extraction and steam carpet machines
- Special protection agent maintains the stain resistance already found in most carpets, rugs and upholstery

1 gal  
0510000615128

## SIMPLE GREEN HAND CLEANER GEL

- Heavy-duty hand cleaning free of d'Limonene
- Utilizes natural pumice to remove dirt and grease
- Contains lanolin to soothe, protect and moisturize skin
- Free of ammonia which can irritate cuts and abrasions
- Removes brake dust, transmission fluid and motor oil
- Cleans wet paint, inks, adhesives, tar, soot and carbon
- Deodorizes stubborn and lingering smells
- Does not require water or rinsing
- Leaves behind no greasy film, sticky residue or dry feel

### Simple Green® 3 Gallon Pump Up Foamer Pro

Portable foam applicator with the familiar ease and portability of a typical pump-up sprayer. Heavy-duty, easy-grip trigger gun with 10" extension wand and locking latch. 6' hose with a wide pattern stainless steel fan nozzle. Viton/Nitrile internal seals and o-rings provide resistance to acidic chemicals. HDPE tank with UV inhibitor can withstand chemical temperatures up to 120°F. Durable manual pump can create up to 45 PSI. Holds 3 gallon of concentrate.

3 U.S. Gallon

### SIMPLE GREEN Dilution Bottle

- Sturdy high-density polyethylene (HDPE) plastic bottles can withstand repeated, heavy use
- Pre-measured levels allow accurate dilution and optimum cleaning performance for Simple Green cleaning and degreasing products
- Dual-action spray and foam trigger for large scale, vertical or precision applications
- 32 oz. liquid capacity
- 8 bottles per case

22 oz. 080000013221
------------------------

### SIMPLE GREEN Multi-Dilution Foamer

- Ice-cold-cooled inserts provide a 1:2 - 1:28 dilution "spitting" range
- Produces thick, clinging foam that increases product contact time and enhances cleaning performance
- Provides powerful jet-spray or precision stream
- Convenient hard-lock for continuous operation
- Easy-lose-and-attachment, provides quick removal from cleaning area without mixing
- 96 oz. injection molded concentrate container

Multi-Dilution Foamer 080000013292

The UK's leading infection control brand now in GCC countries

## DISCOVER THE BIOGUARD DIFFERENCE

Hygiene, Cleaning and Infection Control

### DISINFECTANT CLEANING SOLUTION

A medical grade alcohol free disinfectant and cleaning solution that is truly effective across all professional healthcare environments. Available as a full sized spray or smaller sprays for 'on the go' hygiene.

#### SUITABLE FOR USE ON:

- Work surfaces, floors and walls
- Fabric and furnishings
- Laminar air flow & incubators
- Equipment and utensils
- Fogging Solution providing whole room decontamination

### FOAM HAND SANITISER

Alcohol free Foam Hand Sanitiser that cleans hands without the need for water. Independently tested to BSEN1276 standard and suitable for use on hands and body, making it ideal for bed baths.

#### SUITABLE FOR USE ON:

- Hands - No water needed
- Body - No water needed

### HAND & SURFACE WIPES

A medical grade hand and surface wipe system which cleans and protects and is independently tested. Available as alcohol wipes or alcohol free wipes which have no compromise on performance.

#### SUITABLE FOR USE ON:

- Hands and body
- Work surfaces, floors and walls
- Fabric and furnishings
- Equipment and utensils
- Medical equipment, ultra sound supplies and rental
- Probes
- Laminar Airflow benches & Incubators

### GEL HAND SANITISER

Medical grade Gel Hand Sanitiser with alcohol that cleans and disinfects hands without the need for water. Independently tested to BSEN1276 standard.

#### SUITABLE FOR USE ON:

- Hands - No water needed

**DISCOVER THE DIFFERENCE WITH OUR RANGE OF SUPERIOR HYGIENE, CLEANING & INFECTION CONTROL**

**MEDICAL HAND SCRUB**

Medical grade, alcohol free, antiviral and bacterial hand scrub for high risk environments. Contains plant based moisturisers to reduce the risk of skin irritation compared with other products.

**SUITABLE FOR USE ON:**

- Hands
- OT, ICU or in high risk environments

**DISINFECTANT AIR FRESHENER**

Our 2 in 1 air freshener and disinfectant eliminates all hygiene risks and unpleasant odours. Ideal in environments where the risk of harmful air borne organisms are present, such as consulting room, ambulances and reception areas.

**SUITABLE FOR USE ON:**

- Surfaces
- Fabric and furnishings

**ABSORB POWDER**

Our medical grade Absorb Powder can be used across a whole spectrum of body fluid and chemical spillages. This product is designed to be used in any environment where you need to quickly, hygienically, and safely clean up fluids.

**SUITABLE FOR USE ON:**

- Work surfaces and floors
- Fabric and furnishings

**PUREHOLD HYGIENE HANDLE PRO**

Developed in conjunction with NHS Infection Prevention Specialists, the innovative new Pure Hold Hygiene Handle offers an effective solution to the problem of widespread non-compliance with hand hygiene standards.

**PUREHOLD ECO HANDLE & PUSH PLATE**

Embedded silver ion technology in these easy to fit door handles ensures your doors can be germ free 24/7 breaking the chain of infection and significantly reducing cross infection.

**SUITABLE FOR USE ON:**

- OT, ICU or any high risk environment
- Any door where you need to reduce infection risk

## SILVER OIL ONLY PADS

Dimpled Meltblown Pads

### FEATURES & BENEFITS:

- Highly Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Adsorbs Petroleum Based Liquids and Repels Water
- Cost Effective Solution to Cleaning Up Oil Spills, Leaks and Drips
- Performances Minimize Waste
- Packed in a Sturdy Dispenser Box for Easy Handling
- Dimples Add Strength
- Available in Three Different Basis Weights for Added Choice
- Available in Jumbo Sized Pad for Greater Coverage

## BRONZE OIL ONLY PADS

Plain Oil Only Pads

### FEATURES & BENEFITS:

- Extremely Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Our Most Economical Range of Sorbent Pads
- Adsorbs Petroleum Based Liquids and Repels Water
- Cost Effective Solution to Cleaning Up Oil Spills, Leaks and Drips
- Ideal for Use During Marine Spills
- Packaged in a Plastic Bag for Cost Effectiveness

Part #	Description	Packing	Absorption Cap. (L)
OSW-75	Perforated Heavy weight : Pads	40cm x 50 cm (100/dispense box)	121

Part #	Description	Packing	Absorption Cap. (L)
OBW-70	Light weight Pads	40cm x 50 cm (200/bale)	130

## BRONZE OIL ONLY ROLLS

Plain Oil Only Rolls

- Extremely Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Our Most Economical Range of Sorbent Rolls
- Adsorbs Petroleum Based Liquids and Repels Water
- Cost Effective Solution to Cleaning Up Oil Spills, Leaks and Drips
- Ideal for Use During Marine Spills
- Packaged in a Plastic Bag for Cost Effectiveness
- No Dimples Give You Our Most Adsorbent Rolls

## OIL ONLY SOCKS

### FEATURES & BENEFITS:

- Filled with 100% Polypropylene for Cost-Effectiveness
- Flexible – Can Therefore be Shaped Around Leaky Machinery or Drums
- Available in Two Different Lengths for Added Customer Choice
- Can Also be Used During Clean-Up of Smaller Oil Spills on Water
- Ideal for Use in Order to Surround and Contain Liquids During a Land Spill
- Adsorbs Petroleum Based Liquids and Repels Water

Part #	Description	Packing	Absorption Cap. (L)
OBW-91	Heavy weight Rolls	41cm x 46 m (2/bag)	292

Part #	Description	Packing	Absorption Cap. (L)
OSW-34	7.6X122cm Socks	40 Socks/box	220
OSW-37	7.6X305cm Socks	6 Socks/box	84

## OIL ONLY BOOMS

Spilfyter offers a complete range of marine oil only sorbents. Products available include booms. These booms are ideal for use when cleaning up oil spills/ leaks on water. Spilfyter marine sorbents can be used in harbors/ports, on rivers, lakes and for many other marine applications. Silver Booms provide a high retention of oil during clean-up of spills.

Part #	Description	Packing	Absorption Capacity (L)
OSW51S	Silver 20 cm x 3 Meter Booms	4/bag	269

## OIL ONLY PILLOWS

### PILLOWS

- Filled with 100% Polypropylene for Cost-Effectiveness
- Ideal for Soaking Up Larger Spills Concentrated to One Specific Area
- Available in Three Different Sizes for Added Flexibility
- Can Also Be Used During Clean-Up of Smaller Oil Spills on Water
- Ideal for Putting Under Leaky Pipes, Gaskets or Other Leaking Equipment
- Adsorbs Petroleum Based Liquids and Repels Water

Part #	Description	Packing	Absorption Cap. (L)
OSW-61	25 x 25 cm Pillow	20 Pillows /box	57

## SILVER MAINTENANCE PADS

Dimpled Meltblown Pads

### FEATURES & BENEFITS:

- Highly Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Pads are Static Resistant Giving Greater Safety When Handling Flammable Liquids
- Adsorbs Most Industrial Liquids (Oil-Based as well as Water Based)
- Cost Effective Solution to Cleaning Up Oil Spills, Leaks and Drips
- Perforations Minimize Waste
- Packed in a Sturdy Dispenser Box for Easy Handling

Part #	Description	Packing	Absorption Cap. (L)
USG-75	Perforated Heavy Weight Pads	41 cm x 46 cm (100/dispenser box)	91

## SILVER MAINTENANCE ROLLS

Dimpled Meltblown Rolls

### FEATURES & BENEFITS:

- Highly Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Rolls are Static Resistant Giving Greater Safety When Handling Flammable Liquids
- Adsorbs Most Industrial Liquids (Oil-Based as well as Water Based)
- Cost Effective Solution to Cleaning Up Oil Spills, Leaks and Drips
- All Rolls are Perforated Down Center as well as Across the Width thus Minimizing Waste
- Packed in a Plastic Bag for Greater Economy

Part #	Description	Packing	Absorption Cap. (L)
USG-91	Perforated Heavy Weight Rolls	41 cm x 46 m (2/bag)	182

## MAINTENANCE SOCKS

- Filled with Polypropylene for Cost-Effectiveness
- Flexible – Can Therefore be Shaped Around Leaky Machinery or Drums
- Available in Two Different Lengths for Added Customer Choice
- Ideal for Use in Order to Surround and Contain Liquids During a Land Spill
- Adsorbs Petroleum Based as well as Water Based Liquids
- Can be Used as Temporary Containment During a Spill Situation

Part #	Description	Packing	Absorption Cap. (L)
USG-30	7,6 x 122 cm Socks	15 socks/box	85
USG-34	7,6 x 122 cm Socks	40 socks/box	220

## MAINTENANCE PILLOWS

### FEATURES & BENEFITS:

#### PILLOWS

- Filled with Polypropylene for Cost-Effectiveness
- Ideal for Soaking up Larger Spills Concentrated to One Specific Area
- Available in Three Different Sizes for Added Flexibility

- Ideal for Putting Under Leaky Pipes, Gaskets or Other Leaking Equipment

Part #	Description	Packing	Absorption Cap. (L)
USG-61	25 cm x 25 cm Pillows	20 pillows/Box	57

## SILVER CHEMICAL/HAZMAT PADS

Dimpled Meltblown Pads

### FEATURES & BENEFITS:

- Highly Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Designed to Adsorb Chemicals and Other Hazardous Liquids
- Ideal for Use in Laboratories, Hospitals and Chemical Storage Areas
- Perforations Minimize Waste
- Packed in a Sturdy Dispenser Box for Easy Handling
- Available in Two Different Basis Weights for Added Choice
- Yellow Color Stands Out During a Spill Therefore Providing a "CAUTION" Warning
- Pads are Static Resistant Giving Greater Safety When Handling Flammable Liquids

Part #	Description	Packing	Absorption Cap. (L)
S2-75	Perforated Heavy Weight Pads	41 cm x 46 cm (100/dispenser box)	97

## SILVER CHEMICAL/HAZMAT ROLLS

Dimpled Meltblown Rolls

### FEATURES & BENEFITS:

- Highly Adsorbent Meltblown Polypropylene for Cost-Effectiveness
- Designed to Adsorb Chemicals and Other Hazardous Liquids
- Ideal for Use in Laboratories, Hospitals and Chemical Storage Areas
- Rolls are Perforated Down Center as well as Across the Width Creating Cost Savings
- Packed in a Sturdy Box for Easy Handling (41 cm Wide Rolls are in Dispenser Box)
- Yellow Color Stands Out During a Spill Therefore Providing a "CAUTION" Warning
- Rolls are Static Resistant Giving Greater Safety When Handling Flammable Liquids

Part #	Description	Packing	Absorption Cap. (L)
HGY-91	Perforated Heavy Weight Pads	41 cm x 46 m (2/ box)	94

## CHEMICAL/HAZMAT SOCKS

### FEATURES & BENEFITS:

- Filled with 100% Meltblown Polypropylene for Cost-Effectiveness
- Flexible – Can Therefore be Shaped Around Leaky Machinery or Drums
- Available in Two Different Lengths for Added Customer Choice
- Ideal for Use in Order to Surround and Contain Liquids During a Land Spill
- Designed to Prevent Flow as well as Adsorb Chemicals and Other Hazardous Liquids

Part #	Description	Packing	Absorption Cap. (L)

# RUST REMOVER

The *easy* metal restorer  
that's *easy* on your skin!

- Non-toxic
- No Fumes
- Biodegradable
- Environmentally Safe
- Eliminates rust effortlessly in minutes

An R&D Magazine  
Top 100 invention!

- 
- Removes rust quickly without scrubbing
  - No fumes or bad odors
  - Non-toxic
  - Non-corrosive
  - Safe on skin
  - Non-flammable
  - No VOC's
  - Water soluble
  - Biodegradable
  - Contains no acids, bases or solvents
  - Will not harm un-rusted steel
  - Safe disposal in sewer
  - An excellent rust inhibitor
  - Safe on other metals
- 

EVAPO-RUST™ is so effective, it's currently being used by the U.S. Army's 4th Infantry Division in Fort Hood, Texas for maintenance of the M1A1 Abrams Battle Tank.

www.evapo-rust.com

*"It's quick simple, and unlike some other products, is non-toxic. Busting rust was never easier!"*

-Street Rodder Magazine

A product of extensive research, EVAPO-RUST™ rust remover is an environmentally safe water based product that has been proven to make even deep rust disappear in minutes, without any scrubbing.

It's so easy to use, anyone can restore their rusted tools, auto parts, even firearms to like-new condition. One gallon de-rusts up to 300 pounds of steel.

EVAPO-RUST™ will not harm metals, rubber, plastic, PVC, Viton, most paints, or un-rusted steel. In fact, immersing un-rusted objects in EVAPO-RUST™ provides excellent long-term rust protection.

Best of all, EVAPO-RUST™ is safe to use. It's non toxic, non corrosive, non flammable, and contains no acids, alkalis or petroleum solvents. EVAPO RUST™ is also biodegradable.

## Rust removal has never been easier!

1. **POUR** into a container a sufficient amount of EVAPO-RUST™ to completely cover the rusted object.
2. **IMMERSE** the rusted object into the EVAPO-RUST™ solution for 30 minutes (light rust) up to overnight (heavy rust).
3. **RINSE** item with water. If deep rust remains in pits, re-immerses in EVAPO-RUST™.

### How does EVAPO-RUST™ work?

EVAPO-RUST™ uses "selective chelation," a process in which a large synthetic molecule forms a bond with metals and holds them in solution. The active ingredient in EVAPO-RUST™ bonds exclusively to the iron in iron oxide - not in steel.

### Do parts have to be completely clean before treatment?

No. EVAPO-RUST™ contains detergents which can penetrate dirt and oil. Still, surface contaminants can slow the process and shorten the life of EVAPO-RUST™. Heavy greases and cosmoline should be removed prior to de-rusting.

### Will EVAPO-RUST™ remove bluing and other oxide finishes?

Yes. In about 30 minutes. Anodizing will not be removed. Powder coating and paints that do not contain oxides won't be removed.

### Can I clean brass, copper and aluminum with EVAPO-RUST™?

No, it will not clean (or damage) any of these metals. It will not harm plastic, clothing or glass either.

### I get a black film on some parts after using EVAPO-RUST™. What is it and how do I remove it?

High carbon steel and tool alloy steel items will have a darker appearance when de-rusted. This dark film is carbon, and can be easily wiped off with a cloth.

### Can I de-rust by spraying EVAPO-RUST™ on the rusted area?

No, EVAPO-RUST™ only works in liquid form, since the water in the solution will evaporate when sprayed. However, it can be sprayed on unrusted steel as a rust preventative.

### How can I use EVAPO-RUST™ on a surface too large to soak?

Place a sponge soaked in EVAPO RUST™ over the rusted area. Cover the sponge with plastic wrap and tape the wrap down to prevent moisture from escaping. Remove in 24 hours and rinse with water.

### How long does EVAPO-RUST™ last?

One gallon of EVAPO-RUST™ will remove moderate rust from 300 pounds of steel. If any of the bath evaporates, simply replace with fresh tap water.

### How do I know when the bath is spent?

The bath will turn completely black and will not remove rust.

### How do I dispose of the spent solution?

Pure EVAPO-RUST™ can be safely poured into the city sewer. When the solution is spent, only the iron content will dictate the disposal method.

### What sizes is EVAPO-RUST™ available in?

It comes in quarts, gallons, 5-gallon pails, 55 gallon drums and 275 gallon totes.

# Universal Spill Absorbents Granules

## ABSO-PRO® L16

Calced Attapulgit LVM 16/60

### General description

A premium, all-purpose absorbent with hard, non-slaking granules, made from calcined attapulgit clay.

### Functional use

Dust-free, slip-resistant and non-flammable qualities suit intensive applications for routine or emergency use in the workplace.

### General characteristics

- Inert Mineral Absorbent
- Non-Combustible, Non-Flammable
- Lightweight
- Free Flowing
- High Surface Area
- High Oil Absorption
- High Water Absorption
- Hard, Moisture Resistant Granules
- Non-Swelling
- Low Dust Content

### Technical data

Material Type: Calcined Attapulgit

Appearance: Beige Granules

	TYPICAL	SPECIFICATION
Moisture Content (105° C)*, %:	2	4 max

pH (5% Suspension):	8	

## Spill Trays with Grids

Spill Trays are ideal for catching minor leaks and spills in the workplace and are great for storing smaller drums and containers. Compact and lightweight they can fit into small areas are robust, easy to clean, compatible with most liquids and are DIBt approved

The Spill Tray range can be used and purchased with or without grids.

### FEATURES

- Robust and durable
- Low profiles for limited height applications
- Broadband chemical compatibility

With sump capacities up to 104 litres available in a range of sizes our spill tray range provides a practical, easy to use and safe solution to small liquid container storage.

## Drip Trays

Compact and easy to clean our Drip Trays provide an excellent liquid dispensing work area, suitable for use with most oils and chemicals.

## Drum Workfloors

Our spill flooring range is the flexible decking solution for creating liquid handling workstations and storage areas to fit your working environment.

Great as separate units or combine to create a multiple workstation with a shared sump area. Ramp BFR provides easy access when using a drum trolley.

BF2

## Drum Trolley for Storage and Transportation

Trolleys with built-in sumps designed to allow you to safely transport drums of liquid around the workplace. Made from sturdy 100% polyethylene they offer broadband chemical compatibility and are lightweight.

Ensure your drums are fully protected even when being transported. Simple to use, one person operation. Dispense without the worry of spills.

## Hard Covered Drum Spill Pallets

Our hard covered spill pallets are manufactured from polyethylene which gives them compatibility with a wide range of liquids and they are available in different configurations; 2 or 4 x 205ltr drum storage, small container storage or 1 x 205ltr horizontal drum on a cradle.

### FEATURES

- Delivered fully assembled
- Integral fork pockets
- Broadband chemical compatibility

**“Models BP2HC can be supplied to accept a padlock (not provided) while model BP4HC has a built-in lock.”**

BP4HC

## Polyethylene Storage Cabinets

Ideal for storing drums, small containers or for use as a spill kit station or PPE cupboard, our range of cabinets with built-in sumps are manufactured from polyethylene which gives them excellent chemical resistance and durability. Cabinets are available with adjustable/removable shelves, lockable doors and although the standard colour is yellow other colour options are available on a longer lead time.

### FEATURES

- Durable construction
- Broadband chemical compatibility
- Lockable doors

# SUPER HIGH PRESSURE LARGE CAPACITY

# KYOWA TESTER

## FEATURES

- Achievement of high pressures 5, 30, 50, 100MPa by simple mechanism and simple operation
- Easy-to-carry handy type
- Lightweight and rust-free plastic tank, with dust-proof cover
- With direct-coupled type ball tap available for city water supply, ... easy to feed water
- Pressure gauge with 100  $\phi$  large vibration absorber
- The closing valve is of special construction of Kyowa original design.
- T-50N is designed for large suction/discharge rate and light-weight, having the capacity several times the conventional model
- T-50N is simply connected with a 1.5m high pressure hose with one-touch coupler.
